ABOUT ME

I'm a life-long problem-solver who enjoys learning new things. I've learned React, Ruby on Rails, JavaScript, HTML, and CSS at Epicodus. I'm excited about combining these new skills with the ones I've honed in my previous work in events/ higher ed (creative problem-solving, collaboration, and project coordination) and applying it to my new career in tech.

PROJECTS

Bike Gallery (Ruby on Rails, AWS)

A bike shop site w/full CRUD functionality and authorization via Devise. Uses Active Storage, PostgreSQL and AWS S3. Tested and deployed. Collaborative group project.

YrzTruly.com (React, Firebase)

A website that provides suggestions for greeting card messages. Full CRUD functionality to a NoSQL database and authorization via Firebase.

EDUCATION

Epicodus: *Certificate in Web Development*

40 week program: 800 hours of in-class instruction, plus approximately another 300 hours outside of class studying/projects.

Learned React, Ruby, JavaScript, HTML, CSS, GIT, via pair programming and practical projects.

University of Iowa: *Bachelor's Degree*

English/Communication Studies

SKILLS

- React
- JavaScript
- Ruby on Rails
- TDD w/Jest, Capybara, RSpec, and Swagger
- RESTful APIs
- HTML / CSS
- jQuery
- PostgreSQL/Firebase
- Parsing JSON data
- Git/versioning
- Pair Programming
- Collaboration
- project management
- Customer service

EXPERIENCE

EyeCue Labs, Portland Oregon- *Full Stack Intern.* **Fall 2022**

- Collaborated with 3 other interns to produce a haiku-based game using React and Typescript.
- Front end: converted Figma mock ups to React components and solved rendering challenges.
- Back end: created/updated the database schema and API endpoints.
- Researched and implemented technologies (ie, Socket.io, Prisma, deploying API and front end, etc).
- Practiced working in an Agile environment: weekly sprints/planning, daily stand up, ticket system.

Reed College, Portland, Oregon- *Assistant Director, Conference and Events.* **2008-2022**

- Planned and executed multiple large-scale events simultaneously, including Commencement, Convocation, Reunions, Admissions events and Board of Trustees meetings.
- Managed summer programs from 2010 to 2022; brought in approximately 12,000 guests and $225,000 to $400,000 to campus annually.
- Vetted potential clients, assessing their needs/objectives to determine if they were a match.
- Partnered directly with new clients to build successful conferences.
- Worked collaboratively with internal and external teams to achieve event/conference goals.
